Geniti

turbiti pump skid

The Turbiti O2 pump skid is the multipurpose ultrafine bubble generator suitable for agriculture, horticulture and fish cultivation sites. Super saturation of oxygen for water day storage tanks in horticulture. Drinking water solutions for chicken, cows, pigs and horses, giving high DO water with ultrafine bubbles to animals with enhance their food digestion more efficiently and results in healthier animals.

Geniti

turbiti pump skid

turbiti nanobubbles pump skid

- easy to implement in existing installations
- efficient gas dissolution and nanobubble production
- Clean Tech Chemical free cleaning solutions
- combined in wastewater treatment systems
- Systems in use for poultry and livestock drinking water
- 🕑 uses turbiti nanobubble production technology
- nanobubble production for irrigation ponds for agriculture
- Currently available in single and 3 phase pumps, 1Ø230 volt, 3Ø230 or 3Ø400 volt
- Turbiti 636 for salt and seawater applications

The pump skid nanobubble generator is a complete set, easy to install ready to go.

turbiti nanobubble pump options

Acniti offers the Ebara DWO, Matrix and Ebara 3M pump series for the pump skid. The DWO series has an open impeller and is suitable to pump suspended solids in liquid and dirty water, handling spherical solids up to 19 mm. The Ebara 3M and Matrix are stainless steel pumps suitable for agriculture or aquaculture applications, pumping clean water energy efficient.

salt and seawater application turbiti 636

For salt water acniti offers durable pumps constructed with an impeller and diffuser made of Noryl, a material known for its wear resistance and corrosion resistance.

turbiti 737 pump skid specs

Install and use the product only at an altitude less than 2000 meter
Enable charged operation of 0.5 meters below sea level, never more than 3 meters.
Install a foot valve on the intake pipe when the pump is located above sea level
Acoustic level of the pump is less than 70dBA
Use 4G1mm cable to connect the 3-phase pump, cable type H07RN-F
